

REHABILITATING CHALLENGING DOGS

(An interactive demonstration)

**with Toni Shelbourne
Tellington TTouch Practitioner**

**Dates: Sun 29th May, Sat 2nd July,
Sun 16th Oct, Sat 26th Nov**

Time: 9.30 – 16.00

**Cost: £40 for each dog with handler(s)
£25 for spectators**

Venue: Sulhamstead Village Hall, Nr Reading, Berks

This event is suitable for fosters, rescue workers, dog trainers and members of the public. Many rescue dogs would find it challenging to attend a normal workshop. In addition numerous people ask to watch Toni work with these difficult cases. This interactive demonstration gives participants the best of both worlds. Toni says, 'People for always asking me to demonstrate the work however in a normal workshop I'm more interested in giving participants as much practical experience as possible. Now I believe I've come up with a happy medium'.

How the demonstration works.

Five dogs will be worked individually with their handlers for at least 45 minutes each over the course of the day. No other dogs will be in the room and all spectators will be up on a stage. Toni will assess and work with each dog using appropriate techniques for that case. A chance to ask questions will follow each session. Dogs with any behaviour are welcome.
